BEIJING, Jan. 25 — Protests against China's crackdown in Tibet are spreading worldwide, with demonstrators in London, New York, and other cities demanding an end to the Chinese government's policies in the region.

The protests, which began in Lhasa, Tibet, in March 2008, have since spread to other parts of the country and to other countries. In London, thousands of protesters gathered in front of the Chinese embassy to demand the release of the 14th Dalai Lama and an end to the Chinese government's policies in Tibet.

In New York, protesters gathered in front of the United Nations to demand the same. The protests are part of a larger movement to demand an end to the Chinese government's policies in Tibet, which have been criticized by the international community.

The Chinese government has responded to the protests with a crackdown, including the arrest of protesters and the closure of schools and businesses in Lhasa. The government has also banned the 14th Dalai Lama from entering the country.

# With latest move Federal Reserve inspires confidence during crisis

**WASHINGTON**—The Fed's latest move to cut the discount rate to 1 percent, its lowest level since 1959, was a powerful signal of confidence in the economy, analysts said. The move also sent a clear message to investors that the Fed was committed to keeping the economy on a growth path.

The move was seen as a key step in the Fed's strategy to stimulate the economy and reduce unemployment. It was also seen as a sign that the Fed was confident that the economy was strong enough to handle the move.

## BIR order on corporate income tax rates flat

By Patricia A. Brown

WASHINGTON, March 14 (AP) — The Internal Revenue Service said Thursday that it will not challenge the new corporate income tax rates set by Congress in 2003. The move would allow companies to continue to use the lower rates for the next several years, even as the rates for individuals rise. The IRS said it will not issue any new guidance on the issue, but will continue to monitor the situation.

Growth in remittances lead to higher receipts

By A. S. Srinivasan

NEW DELHI, March 14 (AP) — India's current account surplus widened 19 per cent in the first quarter of 2007, driven by a sharp increase in remittances from abroad. The surplus stood at \$1.1 billion in the first quarter, up from \$920 million in the same period last year. The growth was primarily due to a 25 per cent increase in remittances, which rose to \$1.1 billion from \$880 million. Exports also contributed to the growth, rising 12 per cent to \$1.2 billion. Imports, however, grew at a slower pace of 8 per cent to \$1.1 billion.

NEW DELHI, March 14 (AP) — India's sugar output is expected to reach 1.58 million metric tons (MT) in the first quarter of 2007, up from 1.54 MT in the same period last year. The increase is attributed to a 10 per cent rise in the area under sugarcane cultivation and a 5 per cent increase in the yield per hectare. The government has set a target of 1.6 MT for the first quarter of 2007.

## Middle East companies looking for food ingredients from RP

By Suresh K. Srinivasan

NEW DELHI, March 14 (AP) — Middle East companies are looking for food ingredients from India, according to a report by a leading food processing company. The report says that the demand for food ingredients from India is growing rapidly, particularly in the Middle East. The demand is driven by the increasing population and the growing middle class in the region. The report also says that India has a competitive advantage in the production of food ingredients, particularly in the area of spices and herbs.

NEW DELHI, March 14 (AP) — The Indian government has announced a new scheme to provide financial assistance to small and medium enterprises (SMEs). The scheme is aimed at helping SMEs to expand their production and improve their quality. The government will provide a loan of up to \$100,000 to SMEs. **L**et's be clear: the world we live in is not the world we want. The world we want is a world where the rich are not so rich, where the poor are not so poor, where the environment is not so polluted, where the future is not so uncertain. The world we want is a world where everyone has a chance to live a decent life, where everyone has a chance to make a difference, where everyone has a chance to be part of something bigger than themselves. The world we want is a world where we can all live together in peace and harmony, where we can all live together in hope and faith. The world we want is a world where we can all live together in love and compassion, where we can all live together in kindness and generosity. The world we want is a world where we can all live together in joy and happiness, where we can all live together in peace and harmony, where we can all live together in hope and faith, where we can all live together in love and compassion, where we can all live together in kindness and generosity, where we can all live together in joy and happiness.
